What did we learn from today's parable?

The parable of the good soil teaches us that when you pray and read the bible, your relationship with God will grow - like a seed planted in good soil. Without taking time to talk to God through prayer and learn about God through reading the bible, how can we get to know him?

Bring this story to life:

Try to sit and read your bible while your TV is on, while there's loud music playing, or while you're in a very busy place. How does it go? Are you able to focus? Are you learning anything from your bible while you try to read it in a loud space?

After, try to read your bible in the quiet of your room. How does it go, then? Do you find it easier or harder to concentrate?
